

## Building Report Shows City Growth During Past Year

**Twenty New Residences Built  
Of \$737,766 In Declared  
Value**

The growth of the city during the past year was pointed out in a report of building permits submitted by City Inspector N. B. Willis at the city commission meeting Tuesday night.

The report showed that 253 permits had been given on a total declared value of \$737,766 which included 20 new residences. A breakdown showed that of the permits, 20 were issued in Jan., 12 in Feb., 11 in March, 11 in April, 29 in May, 21 in June, 27 in July, 24 in Aug., 26 in Sept., 35 in Oct., 20 in Nov. and 17 in Dec. Commissioners accepted the report through motion.

William A. Thiebaud appeared before the commission asking that the body consider the possibility of publishing every ordinance change and new ordinance in the newspaper prior to official action.

City Attorney Claude Jones said that the charter would have to be changed in order to carry out the procedure. Commissioner W. F. Crider stated that the action would not be practical, explaining that the cost to the city would be great. He said that ordinances are

posted in the city hall between the first and final readings for at least three days for public inspection. Thicker with

City Clerk Frank Anderson reported that funds of \$35,000

and come in from delinquent real property taxes which were not anticipated in the budget. He recommended that the city use the monies to accept a bid of Jessie Motes on steam cleaning and painting the city hall. The bid was tentatively accepted at a previous commission meeting.

Commissioners authorized Anderson and Jones to draw a contract between the city and Motes following the provisions of Motes' bid instructing Motes to proceed with the work at his earliest convenience. Mayor Herman Close was authorized to sign the contract.

City Inspector Willis reported that all property owners whose buildings encroach on the city right-of-ways on SW 5th St. had been notified. All those notified had encroachments of one foot or more, he said. Notified were: Gus Torrence, Frances D. Rutledge, Almax, Inc., Katie Widman, Albert Multach, S and L Realty Co., Nathaniel

Following a discussion, commissioners agreed that action should be taken on all property in the area which encroaches six inches or more.

Amelia Houston presented a letter from the Woman's Negro Civic League stating that the league agreed to the reappropriation of monies originally earmarked to build a civic club house to be used to purchase additional lots for a park and center. She stated that the organization will

## AN ATTEMPT TO THINK...

(Reprinted from The Stuart News)  
With the new year, I figured as we may be, it is fitting to try to think. First, let's admit, there are probably as many ways of thinking in this world as there are people in it; there is no common road of thought. As intimate as each of his own personality is his way of thinking.  
The ability to think is often falsely glorified. Minds can produce concepts of nobility, dignity and purpose; they can also produce the opposite. The ability to think is no more important than the ability to walk; what you are thinking or where you are walking is the matter of value.  
One of the roads to greatness can take on the infinite paths of thought is for human betterment. Here, indeed, there are many forks in the road and much depends upon the traveler. It is probable that Hitler, an egomaniac with fantastic beliefs in racial and nationalistic myths, thought he was acting for the "betterment of Germany." It is conceivable that Stalin today, steeped in the Marxist myth of the paternal State, believes that his cruelties are to "better mankind."

How we think depends on what we believe. Christ believed in the value of people. His imperishable thoughts "for the betterment of man" had no name. Our is an age in which we are based on love. Love is trust and understanding. To thinking men it would appear that before mankind swallows thoughts "for betterment," it might be wise to ask: "Does the thinker really love mankind?"

From the nature of our world today, it is apparent that the thoughts which produce actions on a grand scale come from men who really have thought. The Lions are a group of men too many are paying too much attention to the ephemeral creations of the mind of man and too few too little to himself. We believe more strongly in the graduated circles of self-interest, the widening rings of governmental importance, in personalities and systems, terms, names, labels, entities of mind without materiality than we do in the miraculous human creature.

We believe in what is not, ignore that which is. We are more concerned with the imaginary world of governments than in the real happiness of individual men.

We idolize crystallized thought, swallow it whole life force gulping wily caterpillars—every hair intact. Men of reason are aware that thought is fluid; terms, systems, premises of value change from day to day and year to year. The hope of the world would seem to be that men learn to think "for betterment" that the dictum "By their works ye shall know them" will apply to the works of thought. One of the national reservoirs of mind thoughts based on trust and understanding, genuine love for the human creature, can and must take precedence over the other sort.

women volunteers go from door to door of the lighted residences collecting for the March of Dimes. The Lions Clubs will sponsor the programs here and in South Bay.

Usually a campaign here is held later than the regular scheduled time in other parts of the nation for the purpose of complying with favorable local conditions. This year, however, it will be held here simultaneously with drives on the coast. Whitlock announces. Campaign reminders will be in your movie theatre, eating establishments, over the radio and in the newspaper. Contributions should be made to the March of Dimes and sent to Whitlock at box 457, Belle Glade.

"We have done all we could—we are sorry it is not enough." This, in a sense, is the report of the National Foundation for Infantile Paralysis to all Floridians. In no manner is this to be construed as an apology for the work of the Foundation. It has done a magnificent job, both in patient care and medical research. But we are having critical years in polio. There were more cases during the past four years than during the ten preceding years. Last year there were approximately 25,000 new cases of polio... and more than 45,000 hold-over cases from previous years, still under treatment. The situation has become so bad that three out of the nation one county out of three had to call on the National Foundation for epidemic aid. In Florida the picture was even worse, with one chapter out of every two exhausting its funds and calling on the home office for aid.

In addition to the fact that polio is on the increase, another

## It's Slim's For An "Honest" Meal

Most people think Slim Benson would probably go to heaven. He first started his series of letting customers figure out their own checks over at his big diner on the highway.

Slim trusts them to pay for as much as they eat—no simply for his tally, his cashier, the waiter, the other day when work took him away from his job, he told his wife he was sick.

Now I was right there with Slim and I knew all he had was coffee and tea which came to a quarter. How come thirty-five

cents?" I asked Slim. "Had an extra fork and knife on the other day, Joe," he said about it—"I'll now," he says.

From where I sit, most people are actually honest—and that's not for their opinions, too, even though they may be different than mine. I like a glass of beer with my dinner; you may prefer some other thing... but we all ought to be able to "figure it out" ourselves.

factor has entered the picture. Our dimes are crippled. Our dimes are on crutches. Our dimes have been infected with the virus of inflation. There must be dimes and more dimes... dollars and more dollars... if we are to be successful in our fight to first check and then wipe out this last—this only—evil epidemic.

Above is a picture of the marvelous poster which is being used in the 1952 MARCH OF DIMES campaign. In the foreground is a little boy, on crutches, but all dressed up in his cowboy outfit, with his six-shooter and his cowboy hat... and, most of all, with that big, confident smile that is so typical of everyone who has polio. In the background, towering over him, is an American soldier, typical of our fighting men in Korea. His face is grim, and on it are the sweat and grime of battle. His hand is outstretched... he seems to be pleading the cause of the little boy who has been crippled with polio... he says to you, and you, and me... all of us: "This fight is YOURS!"

PRE-SCHOOL MOTHERS HOLD JANUARY MEETING  
The Pre-School Mothers Group met at the home of Mrs. Willard Scheffer recently for its regular January meeting. The topic of discussion was "Teaching the Child the Value of Money," was led by Mrs. Edward Gangstad.

The house was assisted by Mrs. W. H. Thames, Jr., served refreshments at the conclusion of the meeting to Mrs. Eugene Fomington, Mrs. Edward O. Gangstad, Mrs. Keefe Breeding, Mrs. V. L. Dexter, Mrs. Sam Knight, Mrs. Ed Cook, Mrs. V. E. Green, Jr., Mrs. Selie Todd, Mrs. John Winburn, Mrs. Culley Collins, Mrs. John Waters, Mrs. Herbert Chapman, Mrs. Mrs. Warren Stoner and Mrs. Emil Wolf.

CUNHA RECOMMENDS HIKING SLAUGHTER WEIGHT OF CATTLE  
Although they have greatly expanded their cattle herds during the past decade, Florida farmers are not yet producing as much beef as the state consumes, according to Dr. J. Cunha of the University of Florida Agricultural Experiment Station.

"Florida's population has increased 46 percent during the past 10 years, and its meat consumption has increased 50 percent," Dr. Cunha pointed out. "To increase beef production, the Experiment Station workers recommended producing larger feed crops, expanding improved pastures, and raising cattle to heavier weights before sending them to market."

"The quick, inexpensive, and easy method for determining soil moisture content for irrigation control has been developed by Dr. Luther C. Hammond and S. N. Edson, soils professors in the University of Florida College of Agriculture."

Many devices for determining when to irrigate have been placed on the market, but all have been too expensive, too complicated, or they just would not work under Florida climatic and soil conditions.

The simple device developed by the Florida scientists consists of a 2 1/2-inch cylinder, a calibrated spring scale, and a stand. Its operation is based upon the weight and mineral soils. Operators merely have to add 1,000 grams of soil and stir while filling the rest of the cylinder with water. When the cylinder is then hung on the scale the needle swings around and stops at either a green, yellow, or red marking.

Green indicates an ample moisture supply, yellow means that irrigation will soon be needed, and red denotes a critically low moisture supply in the soil.

The scale is calibrated in three sections to accurately measure moisture supply in clays, loams, and sands.

No special training is necessary to operate the instrument, since all complicated calibrations have been worked out and incorporated into the scale dial.

The instrument is not yet available to Florida farmers, but will be on the market as soon as a patent is obtained and manufacturing contracts are let.

FARMERS ARE URGED TO KEEP AN EYE ON COSTS OF PRODUCTION IN 1952  
Make allowances for rising costs in planning the farm operation for 1952, Florida farmers are reminded by economists of the University of Florida Agricultural Extension Service.

In 1951 farm production costs were about 12 percent above last year. In 1952 they seem likely to go up maybe another 5 percent.

With a high level of production, farmers will use a lot of higher-priced labor, economists point out, and maybe a little more fertilizer at higher prices. Farm machinery is expected to continue at this year's prices, but possibly go up moderately.

In general, farmers will need more machinery and may buy as many as 1952. All in all, farmers may buy more goods and services and pay more for them, it is believed by Clyde Murphree, assistant economist.

Rising costs in the past few years have forced many farmers to take on more debt, especially production debt for things other than real estate. With the

**USED CAR CEILING REDUCED TWO PER CENT**

Ceiling prices for used automobiles were reduced two percent from those listed in Ceiling Price Regulation 94 on New Year's Day, according to John E. Neel, acting district director of the South Florida OFS office in Miami. Further price reductions will be taken effect quarterly thereafter.

The regulation also requires dealers to tag or label each car offered for sale with the make, model, line or series, any extra, special or optional equipment thereon, and the ceiling price. Dealers must allow a maximum price for trade-in as part of the transaction.

Dealers are also required to furnish the customer with an invoice within seven days after the sale on which certain legal charges are itemized. Such charges and other requirements are listed in the regulation.

Church of God Conducts

Nightly Revival Programs

Rev. and Mrs. Edward Kustel, evangelists, are currently conducting a revival service under the auspices of the Church of God.

Meetings at the church are

Miss Martha Ratley became the bride of Pfc. Curtis T. Williams in a candlelight ceremony in the South Bay Baptist Church last Friday night.

**BUILDING REPORT**

(Continued from Page 1) scheduled at 7:30 every night. Special children's services are held each night from 7:30 to 7:45.

Rev. and Mrs. Kustel have traveled and preached in practically every state in the union and on the city dump. Bailey asked that he place his man in care of the city dump and that the city should pay him \$12 a week and he will pay the remainder of the salary. The action was pending approval to the city, he explained.

Commissioners granted a three cent salary increase to Frank C. Anderson, Ben L. Flint, Isaac Davis, Charles H. Kapp, Mrs. C. W. McDonald and Frank A. Chase pending approval of the chairman of the civil service board.

On request of Commissioner Walter Ashley, the commission appointed Thomas A. Whitaker to grade 2 meter reader and traffic officer in the Police Department.

The bill of William Rhodes for the city audit was approved for payment.

A letter from Charles Fontaine congratulating the city for the clean up of vacant lots and property was read. Three letters from ministers, C. J. Smiley, John L. Brax and John E. Petrie, thanked the city for complimentary membership to the Memorial Hospital.

**HIGHWAY PATROLMAN REPORTS 4 ACCIDENTS DURING WEEK PERIOD**

Highway patrol reports show that there were four highway accidents in the area during the week from Thursday to Thursday.

Johnny Patterson, 25, colored, escaped prisoner from the Glades State Prison Farm, alleged Besie Rader had willed the shares to her children by a former husband.

He was convicted of perjury in connection with the controversy, but the Florida Supreme court reversed the conviction.

**PLANS FOR WALK-IN FARM REFRIGERATOR DEVELOPED BY USDA**

Farmers who want to build their own on-farm refrigeration systems may now set plans for two-temperature walk-in refrigerator developed by the U. S. Department of Agriculture.

The new refrigerator-freezer has been designed by the Department's refrigeration specialists after months of research with experimental units installed at the Agricultural Research Center at Beltsville, Maryland.

The refrigerator freezer is planned so that it may be constructed by the farmer himself, either inside another building or as a separate structure. The Department recommends that technical help from a refrigerator service man be obtained to install the refrigeration equipment.

Cost of construction, figured in one locality at late 1950 prices, is approximately \$1,200, divided about equally between building materials and refrigeration equipment. The refrigerator, operating in a surrounding temperature of 70 degrees Fahrenheit, will use approximately 200 kilowatt-hours of electrical energy per month.

The entire unit measures 8 feet 8 inches in width, 10 feet 7 inches in length and 8 feet in height. The plans provide for a chill room (approximately 20 cu. ft.) in which to chill and store farm products and a freezer room (approximately 100 cu. ft.). The chill room will cool one beef, one large hog or 600 pounds of other produce at a time. The freezer room will freeze 100 pounds a day.

Working drawings (Plan No. 7102) for a two-temperature walk-in refrigerator for the farm may be obtained through the agricultural engineer, Agricultural Extension Service, Gainesville, Florida. A nominal charge to cover printing and mailing is made.

**FIRE DEPARTMENT SELECTS LIEUTENANT**

The Fire Department is currently conducting equipment and tactic drills among the oldest members of the department on second and fourth Monday nights.

From the group participating a department lieutenant will be selected, according to Fire Chief Lawrence Will.

Charlie Kapp and Cecil Bair will take examinations Thursday night for promotion to assistant fire chief.

**1952 LICENSES ON SALE AT BELLE GLADE MOTORS**

"Automobile license plates went on sale here at the Belle Glade Motors Monday. Car owners will be able to purchase 1952 plates every Monday, Tuesday and Wednesday until the middle of March.

The hours are 9 a. m. through 5 p. m., a spokesman said. Deadline for new licenses is Feb. 20. They are being sold at Lake Shore Motors in Pahokee.

**HIGH SCHOOL BAND PLANS PUBLIC CONCERT**

The Belle Glade High School band began practicing for its first public concert of the year this week, according to Director Alan H. Drake.

The bi-monthly paper is an inter-clergy publication. It cited him as being a member of the board of directors of the Christian Freedom Foundation ever since its founding.

Previous to holding the two Glades pastorates, Rev. Petrie was pastor of Christ Episcopal Church, Harlan, Kentucky.

**REV. PETRIE CITED IN CLERGY PUBLICATION**

The varied and active career of the Rev. John Clarence Petrie, vicar of Episcopal churches in Pahokee and Clewiston, was reviewed in a brief biographical sketch in the January issue of "Christian Economics."

The bi-monthly paper is an inter-clergy publication. It cited him as being a member of the board of directors of the Christian Freedom Foundation ever since its founding.

**ST. PHILIPS SOCIETY TO HAVE BAKED GOODS SALE**

St. Philip's Altar Society will sponsor a baked goods sale beginning at 9:30 Saturday morning.

Booths will be set up in front of Bell's Restaurant and Redwing Super Market.

**MRS. MAC COOKIE DIES HERE WEDNESDAY NIGHT**

Mrs. Mac Cookie, who moved here about six weeks ago from West Palm Beach, died Wednesday night in the Belle Glade Memorial Hospital.

She was a member of the Iretta Sherman Chapter, Order of the Eastern Star in West Palm Beach and of the First Baptist Church at Lake Worth.

She and her husband, Virgil Cook, Jr., who is employed as a druggist with the Glades Drug Store, made their home here recently.

Other survivors include her mother, Mrs. Linnie Hobbs; Miami, four sisters, Mrs. Ivy Clay, Mrs. Mildred Casto and Mrs. Evelyn Bridges, all of Atlanta, Ga., and Mrs. Alma Jones of Panama City; and three brothers, Carlton Hobbs, Miami; Gordon Hobbs, Atlanta, and L. D. Williams, Atlanta.

Services and burial will be held in Atlanta. Muzi-Simon-Faville Mortuary has charge of arrangements in West Palm Beach.

**SHOOTIN' BLANKS**

Continued From Page One an inch for the first publication and 80 cents an issue for each succeeding publication.

I could have several inch thick rugs in the office, gold embroidered tapestries at the windows, pearl parrot pots, ivory telephone, electric typewriter and maybe a mink thrown in.

But there are always a few practical guys who call a halt to such schemes. These pointed out that the procedure would be impractical and that if the group is so anxious to get wind of civic "goings on" all they have to do is take a little time and read. If they can't read, the additional publications aren't going to help any. Between the first and final readings or ordinances are posted in the city hall for public perusal unless the measures are of an emergency nature. In addition, newspaper stories of the commission hearings mention the ordinances which are passed on first reading.

It's all enough to make one give up the elevated position of an arm chair strategist.

Luther Jones, Publisher  
The Belle Glade Herald  
Belle Glade, Florida

Dear Mr. Jones:

I've noticed in the last two issues of the Herald that a couple of men here at the paint shop, Irvin, the sign painter, and Jones, the house painter, have been trying to get each other's picture in the paper. To me it looks like a frame-up.

I've been too busy with neon work and sign erection to pay much attention to what they're doing but I have noticed that every time I want somebody to give me a hand to load some ladders or hang a sign they're never around. Down getting their pictures taken, I suppose.

I think this foolishness has gone far enough and I want to say that the whole paint shop crew should get back to work and stop wasting time writing letters.

Very truly yours  
Harold Files

Publisher's note:  
Maybe they want to be President.

## Test Your Intelligence

(Editor's note: Testing intelligence is something I've always been loath to do assuming that ignorance is bliss. However, one day last week I was feeling especially sharp and cast aside a life long tradition by going through the following test. It looked simple enough, and I thought it might even be a chance to get the big head. Thinking that Herald readers might feel the same way, I decided to give them the opportunity to see how smart they are. By the way, the rules say that you aren't supposed to look at the answers until you have finished the test.)

- Score 10 points for each correct answer in the first six questions.

of renewing their policies at the expiration of 5 or 8 years, may now have their cases reviewed by the Veterans Administration and possibly approved.

It is important that all such veterans be informed of this new decision, and I wish to point out the extreme importance of this to these holders of NSLI prior to April 25, 1951, and who were prevented from continuing the protection which they manifested every intent to continue.

Authority is now granted to make adjustments in the following-described cases where renewal was denied: (a) Timely payment of premium for the 60th or 90th month was made and renewal premium was timely paid in an amount equal to or in excess of the old rate; (b) Timely payment is made of renewal premium without payment of last premium on expiring term insurance.

### NEGRO NEWS

#### Everglades Vocational High

Having spent a joyous holiday season at their respective homes, the students at E.V.H. have returned this year with new spirit and desire to improve themselves in every way possible.

Principal Graux welcomed the students in the Monday chapel exercise, following the NFA program, which proved a very enjoyable one. Keynote speakers on the program were Willie Fred Wimberly, Otis Jordan, Roosevelt Lincoln, Lincoln, J. T. McCoy, and Robert Dickinson. Mr. J. J. Holliday, NFA advisor.

The faculty and student body of E.V.H. mourn the death of Cleveland Stubbs, fifth grade pupil, who died by drowning Monday, December 31. Two of his school comrades (both classmates) witnessed the shocking tragedy. Donations were made to the family by the school and various community persons. The body lay in state at Taylor Funeral Home, where many persons viewed the remains of their friend, classmate, and schoolmate. Interment was held in Macon, Georgia.

The "Bobcats" played Melbourne in a post season game at Vero Beach Christmas Day. The band and many other students accompanied the team on this trip. Although the team was defeated by a score of 13-0, everyone reported a highly enjoyable trip. Three players of E.V.H. made the 1951 All-Conference team: Otis Jordan, basketball; Freddie Davis, guard; Freddie Davis, back. We wish to compliment these players, as well as the remaining team members, for their gridiron performances this season, this being the last year for the all-conference team members as they are graduating seniors. Other graduating seniors who have played their last game are: Melvin Knight, Willie F. Wimberly, Wilbert Adams, Gus Peavy, and Leon Johnson. We have had a good football season, thanks to Coaches Perry and Echols.

Basketball schedule: Home, Jan. 15, Clewiston; Jan. 21, Melbourne; Jan. 28, Stuart; Jan. 30, Ft. Pierce; Feb. 1, Titusville; Feb. 7, Dillard; Feb. 11, Dorsey; away, Jan. 25, Titusville; Feb. 4, Melbourne; Feb. 15, Ft. Pierce; Feb. 18, Dorsey; Feb. 22, Dillard; Feb. 29, Stuart.

As we start the year here in our school we are filled to overflowing with bright and eager young boys and girls whose inquiring minds and direct questions will challenge us as we go about our daily tasks of enlightenment. We hope to accomplish a great deal towards our expanded and enriched program during the year which is just beginning. We are counting on our parents and friends for encouragement and assistance. "So Off With the Old and On With the New..." and the best of luck in 1952.

**Holiday Program Huge Success**

Our Christmas program was very successful. Beginning with our annual pageant "Joybells of Christmas" on December 15th, continuing with individual classroom activities and ending with our Community Christmas Tree Program, everyone seemed to enter into the old-fashioned spirit of the affair and as a result, a good time was had by all. Deep concern is expressed over the destruction by judicial usurpation and interpretation, especially by the executive department of the Federal government, of our Constitution, and the desire to preserve for ourselves and our children the blessings of liberty under law.

It denounces and condemns P.T.A. stands for the social and educational separation of the races, declares a firm belief in the time honored and cherished traditions and customs and opposes any legislation which seeks to destroy them.

## Five the Dual-Range Pontiac

Equipment, accessories and trim illustrated are subject to change without notice.

DOLLAR FOR DOLLAR YOU CAN'T BEAT A PONTIAC!

Take the wheel yourself... for the Driving Thrill of your life!

We want you to be among the first drivers in America to personally experience a basic advancement in motor car engineering—new Dual-Range performance.

Dual-Range performance means that Pontiac has combined a powerful high-compression engine, with GM's new Dual-Range Hydra-Matic Drive and a new high-performance, economy axle to give you selective performance for any driving condition.

In the Traffic Range you have tremendous acceleration and snap and go! At the touch of a finger you can be in the Cruising Range, riding smoothly, economically and effortlessly on almost any road surface. Come in and drive it—for seasonal new proof that dollar for dollar you can't beat a Pontiac!

**THE POWER YOU WANT - WHEN YOU WANT IT - WHERE YOU WANT IT**
